
CONDITION SURVEY

NOTES

Control is by USACE and USC & GS.
Coordinates are based on the Lambert Projection for Oregon, North Zone.
Datum is Mean Lower Low Water. (MLLW is 3.98 feet below National Geodetic Vertical Datum at Toledo,1947 adjustment.)
Soundings are shown in feet and indicate depths below MLLW.
Elevations are shown thus: +2, indicating height in feet above MLLW.
Geographical locations (docks, banklines,etc....) are approximate.

The information depicted on this map represents the results of surveys made on the dates indicated and can only be considered as indicating the general condition existing at that time.

THE AUTHORIZED PROJECT

provides for a channel 10 feet deep and 200 feet wide, and approximately 2000 feet long in Depot Slough.
