Astoria, OR 97103

2-4-03

Dear Sir,

We received the 5 volume copy of the Final Supplemental Report + Impact Statement you sent us.

We are still opposed to the dredging. It is not an improvement project. This project benefits a few at the cost of many citizens. The dredging will drastically change the Columbia River for the worst.

This project will help a handful of wealthy shipping companies and ruin the Columbia River for eternity.

Sincerely,

Georgette Eastland + Bill Eastland
