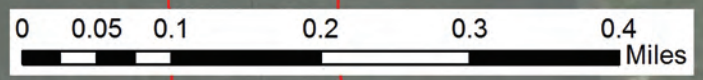
Northport Upland Disposal Site - River Mile 71.9



Size: 27 acres
Elevation: 0 to 10 feet above Mean Sea Level
Owner: Port of Kalama
Description: Most of the peninsula and the adjoining properties to the south have received fill from previous placement operations. When the site is not in use, grasses may become established across the dredged material. Woodlands abut the property's eastern boundary. Sand and gravel mining operations currently occur on this property. As a result, this property is heavily traversed by vehicles and heavy equipment.
