¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: Upon review of the wetland delineation data points and associated materials, the Review Area is entirely dry land. Whetstone Creek is located approximately 500 feet to the north of the Review Area and may have historically inundated the Review Area, however, the field data does not indicate the presence of any hydrophytic vegetation, nor hydric soils, nor wetland hydrology. Similarly, aerial imagery does not indicate the Review Area contains any wetlands or waters of the U.S.
