

ACASS/CCASS Architect Engineers – Construction Contractors

Effective November 1, 2006, a DoD PKI Certificate will be required for all Contractor users accessing CPARS, ACASS, and CCASS. For additional information please visit the following web site: http://cpars.navy.mil/pki_info.htm

If your company only wants to see your Performance Evaluations, log onto the following website using your DUN'S number and the MPIN number that was selected when registering in the CCR: www.ppirs.gov this is the same web site used by the Source Selection Officials. It is a repository of Performance Evaluations submitted to all major government past performance collection systems, including ACASS.

If you wish to see your DoD Award information for the past 1 ½ years, the most recent SF330 Part II submitted to the <http://www.bpn.gov/orca> site, and all ACASS Performance Evaluations for the past 6 years, log onto the following Website: www.cpars.navy.mil Click: “**Access Forms**”. Fill-out, sign, and submit the “**Contractor Corporate Senior Management Representative**” Form. Please be aware only (1) one person from each Firm location can access the information. Just as with the old ACASS system, the Corporate Headquarters Office can see information concerning all subordinate branch offices, but each branch can only see information for their office. The Corporate Headquarters Office should list their DUNS number, as well as the DUNS numbers of all subordinate branch offices on the application. Applications from subordinate branch offices should only list the DUNS number for that branch.
