

TABLE OF CONTENTS

1. INTRODUCTION	5
2. PROJECT DESCRIPTION.....	5
2.1. Alternatives	6
2.1.1. No Action Alternative	6
2.1.2. Non-Structural Alternative	6
2.1.3. Structural Alternatives	7
3. WILDLIFE MITIGATION PLANNING AND ANALYSIS	17
3.1. Interagency Wildlife Mitigation Team.....	21
3.2. Habitat Evaluation Procedures.....	21
3.3. Target Years for HEP Analysis.....	21
3.4. Target Species.....	22
3.5. Habitat Variables, Field Data Collection Techniques for Habitat Variables, and Habitat Suitability Indices Equations	23
3.6. Habitat Types and Definitions	33
3.7. Habitat Mapping	34
3.8. Growth and Successional Rates	45
3.9. Disposal Sites.....	45
4. HEP ANALYSIS	51
4.1. HEP Assumptions	51
4.2. HEP Analysis Methodology.....	51
4.3. HEP Analysis – Project Related Losses.....	52
4.3.1. Government Disposal Plan.....	53
4.3.2. Sponsor Disposal Plan	55
5. WILDLIFE MITIGATION PLANS	58
5.1. Growth and Successional Rates	70
5.2. HEP Analysis Mitigation	81
5.3. HEP Results for Mitigation Sites	82
6. WILDLIFE MITIGATION FOR EACH STUDY ALTERNATIVE.....	85
6.1. No Action Alternative	85
6.2. Non-Structural Alternative	85
6.3. Structural Alternatives: 41'X600', 42'X600', AND 43'X600' Channels.....	85
7. COST EFFECTIVENESS AND INCREMENTAL COST ANALYSIS	85
7.1. Terminology.....	86
7.2. How Many Increments?	86
7.3. Calculating Average Annual Costs	87
7.4. Cost Effectiveness	88
7.5. Summary of Site By Site Cost Analysis	88
7.6. Summary of System Cost Effectiveness.....	90
7.7. Incremental Cost Analysis	92
7.8. Conclusions.....	94
7.9. Wildlife Mitigation Actions at Cost -Effective Plan Sites.....	94
7.9.1. Government Disposal Plan Mitigation.....	94
7.9.2. Sponsor Preferred Disposal Plan	95
7.9.3. Factors Affecting Selection of a Recommended Mitigation Plan	97
8. SIGNIFICANCE OF WILDLIFE MITIGATION ACTIONS	98
9. WILDLIFE MITIGATION MONITORING AND OPERATION AND MAINTENANCE.....	100

LIST OF TABLES

Table 1. Summary of Disposal Alternatives	11
Table 2. Government Disposal Plan Disposal Sites.....	14
Table 3. Site Differences Between Disposal Alternatives and Site Use in the 20-year term for those Sponsor Preferred Sites not in the Government Plan.....	16
Table 4. Habitat composition and acreage for proposed disposal sites, Government Disposal Plan.....	18
Table 5. Habitat composition and acreage for proposed disposal sites, Sponsor Disposal Plan.....	20
Table 6. HEP Evaluation Species and Habitat Models.....	23
Table 7. Evaluation species selected by the HEP team and their habitat association.....	23
Table 8. Habitat variables, their measurement techniques, and equations for habitat suitability determination for pond-breeding amphibians.....	24
Table 9. Habitat variables, their measurement techniques, and equations for habitat suitability determination for Canada geese.....	25
Table 10. Habitat variables, their measurement techniques, and equations for habitat suitability determination for mallard.....	26
Table 11. Habitat variables, their measurement techniques, and equations for habitat suitability determination for savannah sparrow.....	27
Table 12. Habitat variables, their measurement techniques, and equations for habitat suitability determination for black-capped chickadee	28
Table 13. Habitat variables, their measurement techniques, and equations for habitat suitability determination for yellow warbler	29
Table 14. Habitat variables, their measurement techniques, and equations for habitat suitability determination for Cooper's hawk	30
Table 15. Habitat variables, their measurement techniques, and equations for habitat suitability determination for mink	31
Table 16. Habitat variables, their measurement techniques, and equations for habitat suitability determination for song sparrow	32
Table 17. Habitat types for HEP analysis of disposal and mitigation sites	33
Table 18. Habitat acreage for with and without project condition and target year for Government Disposal Plan sites	35
Table 19. Habitat acreage by site, with and without project condition, and target year for proposed disposal sites that require mitigation, Sponsor Disposal Plan	40
Table 20. HSI values for pond-breeding amphibians by habitat classification by target year for the with and without project conditions – disposal site analysis	46
Table 21. HSI values for Canada geese by habitat classification by target year for with and without project conditions – disposal site analysis.....	46
Table 22. HSI values for mallard by habitat classification by target year for with and without project conditions – disposal site analysis	47
Table 23. HSI values for savannah sparrow by habitat classification by target year for with and without project conditions – disposal site analysis.....	48
Table 24. HSI values for black-capped chickadees by habitat classification by target year for with and without project conditions – disposal site analysis	48
Table 25. HSI values for yellow warblers by habitat classification by target year for with and without project conditions – disposal site analysis.....	49
Table 26. HSI values for Cooper's hawk by habitat classification by target year for with and without project conditions – disposal site analysis.....	49
Table 27. HSI values for mink by habitat classification by target year for with and without project conditions – disposal site analysis	50
Table 28. HSI values for song sparrow by habitat classification by target year for with and without project conditions – disposal site analysis.....	50
Table 29. Loss in AAHUs for target species and for general habitats, Government Disposal Plan.....	55
Table 30. Site specific wildlife habitat losses in AAHUs for the Government and Sponsor Disposal Plans. Losses in AAHUs were mathematically adjusted and a 5% contingency factor was added.....	58
Table 31. Loss in AAHUs for target species and for general habitats, Sponsor Disposal Plan	57
Table 32. Potential Mitigation Sites for Columbia River Channel Improvement Study	59
Table 33. Habitat acreage for the with and without project condition, Joslin Property mitigation site.....	60

Table 34. Habitat acreage for the with and without project condition, Vancouver Lowlands mitigation site.....	62
Table 35. Habitat acreage for the with and without project condition, Sauvie 94 mitigation site.....	63
Table 36. Habitat acreage for the with and without project condition, Woodland Bottoms mitigation site.....	64
Table 37. Habitat acreage for the with and without project condition, Burke Island mitigation site.	65
Table 38. Habitat acreage for the with and without project condition, Martin Island mitigation site.	66
Table 39. Habitat acreage for the with and without project condition, Webb Island mitigation site.	67
Table 40. Habitat acreage for the with and without project condition, Puget Island mitigation site.	68
Table 41. Habitat acreage for the with and without project condition, Svensen Island mitigation site.	69
Table 42. Mitigation HSI values for pond-breeding amphibians by habitat classification by target year for the with and without project conditions.....	71
Table 43. Mitigation HSI values for Canada geese by habitat classification by target year for the with and without project conditions.....	72
Table 44. Mitigation HSI values for mallard by habitat classification by target year for the with and without project conditions.....	75
Table 45. Mitigation HSI values for savannah sparrows by habitat classification by target year for the with and without project conditions.....	76
Table 46. Mitigation HSI values for black-capped chickadees by habitat classification by target year for the with and without project conditions.....	77
Table 47. Mitigation HSI values for yellow warblers by habitat classification by target year for the with and without project conditions.....	78
Table 48. Mitigation HSI values for Cooper's hawk by habitat classification by target year for the with and without project conditions.....	79
Table 49. Mitigation HSI values for mink by habitat classification by target year for the with and without project conditions.....	80
Table 50. Mitigation HSI values for song sparrows by habitat classification by target year for the with and without project conditions.....	81
Table 51. AAHUs determined for target species at each potential mitigation site and site totals.	82
Table 52. AAHUs determined for target species, three general habitats and each potential mitigation site.	84
Table 53. Summary of sites, action alternatives, average annual costs, average annual habitat units, and average annual cost per habitat unit.	89
Table 54. Summary of cost effective alternatives by site, average annual habitat units, average annual cost, and average annual cost per habitat unit.	90
Table 55. Cost effective least-cost combinations for the system average annual habitat units and average annual cost.	91
Table 56. Summary of final incremental cost analysis.....	93
Table 57. Target species, mitigation site and total AAHUs for proposed mitigation for the Government Disposal Plan.	95
Table 58. Proposed Mitigation for Sponsor Disposal Plan.	96
Table 59. Proposed Mitigation for Sponsor Disposal Plan with an equitable distribution of mitigation AAHUs between Oregon and Washington.	98

LIST OF EXHIBITS

- Exhibit A. Habitat Evaluation Procedures models for target species selected for Columbia River Channel Improvement Study.**
- Exhibit B. Habitat Maps for with and without project conditions at dredged material disposal sites, Columbia River Channel Improvement Study.**
- Exhibit C. Habitat Maps for with and without project conditions at proposed mitigation sites, Columbia River Channel Improvement.**
- Exhibit D. Estimated future with and without project conditions at dredged material disposal sites, Columbia River Channel Improvement Study.**
- Exhibit E. Estimated future with and without project conditions at proposed mitigation sites, Columbia River Channel Improvement Study.**
- Exhibit F. Conceptual Wildlife Mitigation Measures**
- Exhibit G. AAHU Calculations for the Government and Sponsor Preferred Disposal Plans**
- Exhibit H. Mitigation AAHU Calculations**
- Exhibit I. Wildlife Mitigation Monitoring and Operation and Maintenance**
