

# Endangered Species Act - Section 7 Consultation Biological Opinion & Conference Opinion

and

## Magnuson-Stevens Act Essential Fish Habitat Consultation

Reinitiation of Columbia River Federal Navigation  
Channel Improvements Project

Action Agency: U.S. Army Corps of Engineers - Portland District

Consultation  
Conducted By: National Marine Fisheries Service,  
Northwest Region

Date Issued: February 16, 2005

Issued by: *Michael R. Lohn*  
D. Robert Lohn  
Regional Administrator

Refer to: 2004/01612

## TABLE OF CONTENTS

1. INTRODUCTION .....	3
1.1 Introduction .....	3
1.2 Biological Opinion .....	3
1.3 Relationship to Other Biological Opinions .....	5
1.3.1 Jeopardy and Adverse Modification Determination .....	7
2. BACKGROUND .....	7
2.1 Introduction to the Columbia River Channel Improvements Project .....	7
2.2 Consultation History .....	8
3. PROPOSED ACTION .....	9
3.1 Introduction .....	9
3.2 Description of the Proposed Action .....	10
3.2.1 Navigation Channel Shoals that are Less than 48 Feet Deep .....	12
3.2.2 Construction and Maintenance Dredging .....	12
3.2.3 Construction and Maintenance Disposal Activities .....	14
3.2.4 Additional Provisions for Protection of Water Resources .....	15
3.2.5 Locations for Construction and Maintenance Dredging and Dredged Material Disposal .....	16
3.2.6 Monitoring Program and Adaptive Management Process .....	18
3.2.7 Ecosystem Restoration and Research Actions .....	22
4. BIOLOGICAL INFORMATION .....	24
4.1 General Status of ESA-Listed Salmonids .....	24
4.2 Biological Requirements of Salmonids as Defined by the Conceptual Ecosystem Model .....	25
4.2.1 Habitat-Forming Processes .....	26
4.2.2 Habitat Types .....	26
5. ENVIRONMENTAL BASELINE .....	31
5.1 Introduction .....	31
5.2 Environmental Condition of the Lower Columbia River and Estuary .....	31
5.2.1 Description of the Environmental Baseline for ESA-listed Salmonids the Lower Columbia River and Estuary .....	35
6. EFFECTS OF THE PROPOSED ACTION .....	39
6.1 Introduction .....	39
6.2 Effects from Construction and Maintenance Activities .....	41
6.2.1 Direct Effects .....	41
6.2.2 Indirect Effects .....	42
6.3 Effects from Construction and Maintenance Activities on Key Salmonid Habitats .....	47
6.3.1 Tidal Marsh and Swamp .....	47
6.3.2 Shallow Water and Flats .....	49
6.3.3 Water Column .....	51

6.4	Indicators that Occur in More Than One Key Habitat Type .....	53
6.4.1	Habitat Complexity, Connectivity, and Conveyance; Feeding Habitat Opportunity; Refugia; and Habitat-specific Food Availability .....	53
6.4.2	Contaminants .....	54
6.5	Effects from Interrelated and Interdependent Activities .....	56
6.5.1	Willamette River Navigation Channel Deepening .....	56
6.5.2	Deepening and Maintenance of Project Berths .....	57
6.5.3.	Development of Port Activities and Deep Draft Vessels .....	57
6.5.4	Non-indigenous Species Introductions .....	58
6.6	Uncertainty Regarding Project-related Effects and Associated Risk to Ecosystem Indicators as Related to Monitoring Actions .....	58
6.7	Effects Resulting from Proposed Monitoring, Ecosystem Restoration, and Research Activities .....	60
6.7.1	Monitoring Program .....	60
6.7.2	Ecosystem Restoration Features .....	61
6.7.3	Ecosystem Research Actions .....	71
6.8	Summary of Effects of the Proposed Action on the Biological Requirements of Proposed and ESA-Listed Salmonids .....	72
7.	CRITICAL HABITAT .....	73
7.1	Defining Proposed and Designated Critical Habitat .....	73
7.1.1	Status of Critical Habitat .....	73
7.1.2	Analysis of Effects to PCEs of Proposed and Designated Critical Habitat .....	75
7.1.3	Analysis of Essential Features of Proposed and designated Critical Habitat - Ecosystem Restoration Features .....	77
7.1.4	Summary of Effects of the Proposed Action on Critical Habitat .....	78
8.	CUMULATIVE EFFECTS .....	79
8.1	Introduction .....	79
8.2	State Actions .....	80
8.2.1	Oregon .....	81
8.2.2	Washington .....	82
8.3	Local Actions .....	83
8.4	Tribal Actions .....	84
8.5	Private Actions .....	85
8.6	Cumulative Effects Summary .....	85
9.	CONCLUSION .....	86
9.1	Introduction .....	86
9.2	Summary of Navigation Channel Improvement Effects - Jeopardy Standard ..	86
9.2.1	Summary of Navigation Channel Improvement Effects .....	87
9.3	Monitoring and Adaptive Management .....	88
9.4	Ecosystem Research Actions .....	89
9.5	Ecosystem Restoration Features .....	89
9.6	Jeopardy Conclusion .....	90
9.7	Critical Habitat Conclusion .....	90

10. CONSERVATION RECOMMENDATIONS .....	90
10.1 Introduction .....	90
10.2 Conservation Recommendations .....	91
10.2.1 Pile Dike Study .....	91
10.2.2 Ecosystem Conservation/Restoration .....	91
10.2.3 Sediment Budget for the Lower Columbia River and Estuary .....	92
10.2.4 Near-shore and Plume Study .....	92
10.2.5 Public Involvement in the Adaptive Management Process .....	92
10.2.6 OHSU/OGI ELCIRC Modeling .....	92
10.2.7 Pipeline Dredge Disposal .....	92
10.2.8 Control of Non-Indigenous Species .....	93
10.2.9 Involvement of the Columbia River Tribes in Project Implementation ..	93
11. REINITIATION OF CONSULTATION .....	93
12. INCIDENTAL TAKE STATEMENT .....	93
12.1 Introduction .....	93
12.2 Amount or Extent of the Take .....	94
12.3 Effect of the Take .....	95
12.3.1 Short-term Extent of Take .....	95
12.3.2 Long-term Extent of Take .....	98
12.4 Reasonable and Prudent Measures .....	100
12.5 Terms and Conditions .....	100
13. MAGNUSON-STEVENS FISHERY CONSERVATION AND MANAGEMENT ACT .....	108
13.1 EFH Related to the Project .....	108
13.2 EFH Conservation Recommendations .....	108
13.3. Statutory Response Requirement .....	109
13.4 Supplemental Consultation .....	109
14. DATA QUALITY ACT DOCUMENTATION AND PRE-DISSEMINATION REVIEW .....	109
15. REFERENCES .....	111
