Biological and Conference Opinions for the Columbia River Channel Improvements Project

Agency: U.S. Army Corps of Engineers

Consultation and Conferencing Conducted By: U.S. Fish and Wildlife Service

Approved By: Kenper M. McMaster
Kenper M. McMaster, State Supervisor, Oregon State Office

Date Issued: 5/26/02

Reply To: 8330.2055(02)
X-ref: 8330.2804(99), 8330.0563(01)
File Name: ConfOpinion 02.wpd
Tracking Numbers: 02-1743, 02-4943

Table of Contents

1.0	Consultation and Conference History	2
1.1	1999 Terrestrial Species Consultation	2
1.2	2001-2002 Aquatic Species Conference and Consultation	5
2.0	Description of the Proposed Action	5
2.1	Introduction	5
2.2	Proposed Action	7
2.2.1	Navigation Channel Shoals that are Less than 48 Feet Deep	10
2.2.2	Construction and Maintenance Dredging	10
2.2.3	Construction and Maintenance Disposal Activities	12
2.2.4	Additional Provisions for Protection of Water Resources	14
2.2.5	Locations for Construction and Maintenance Dredging and Dredged Material Disposal	14
2.2.6	Monitoring Program and Adaptive Management Process	17
2.2.7	Ecosystem Restoration and Research Actions	23
2.2.7.1	Ecosystem Restoration Activities	23
2.2.7.2	Ecosystem Research Activities	25
3.0	Status of the Species	26
3.1	Southwestern Washington/Columbia River Coastal Cutthroat Trout	27
3.1.1	Overview	27
3.1.2	Status and Distribution	28
3.1.3	Early Life History	29
3.1.4	Migration	29
3.1.5	Spawning	30
3.2	Columbia River Bull Trout	31
3.2.1	Overview	31
4.0	Environmental Baseline	31
4.1	Lower Columbia River and Estuary Conditions	32
4.2	Coastal Cutthroat Trout and Bull Trout, Lower Columbia River and Estuary	34
4.2.1	Coastal Cutthroat Trout	34
4.2.2	Bull Trout	38
4.3	Description of Lower Columbia River and Estuary Baseline Conditions	38
4.3.1	Using a Conceptual Ecosystem Model	38
4.3.2	Introduction	38
4.3.2	Habitat Forming Processes	42
4.3.3	Habitat Types	42

4.3.4	Habitat Primary Productivity Pathway	44
4.3.5	Food Web Pathway	44
4.3.6	Growth Pathway	46
4.3.7	Survival Pathway	46
4.4	Updated Environmental Baseline Information for Columbian White-tailed Deer and Bald Eagle	48
4.4.1	Columbian White-tailed Deer	48
4.4.2	Bald Eagle	49
5.0	Effects of Action	49
5.1	Introduction	49
5.2	Uncertainty Regarding Project-related Effects and Associated Risk to Ecosystem Indicators as Related to Monitoring Actions	52
5.3	Effects from Construction and Maintenance Activities	53
5.3.1	Immediate (Direct) Effects	54
5.3.2	Short- and Long-term (Indirect) Effects to Ecosystem Processes and Functions of Importance to Coastal Cutthroat Trout and Bull Trout	55
5.3.2.1	Ecosystem Indicator - Suspended Sediment (including an analysis of accretion and erosion)	57
5.3.2.2	Ecosystem Indicator - Bedload (including analysis of accretion and erosion) ..	58
5.3.2.3	Ecosystem Indicator - Turbidity	60
5.3.2.4	Ecosystem Indicator - Salinity	60
5.3.2.5	Ecosystem Indicator - Bathymetry (including an analysis of velocity field) ..	61
5.3.2.6	Effects from Construction and Maintenance Activities on Key Salmonid Habitats	63
5.3.2.7	Tidal Marsh and Swamp	63
5.3.2.7.1	Insects	64
5.3.2.7.2	Macrodetritus and Microdetritus	65
5.3.2.7.3	Tidal Marsh and Swamp Summary	65
5.3.2.8	Shallow Water and Flats	65
5.3.2.8.1	Benthic Algae	67
5.3.2.8.2	Shallow Water and Flats Summary	68
5.3.2.9	Water Column	68
5.3.2.9.1	Deposit Feeders/Suspension-Deposit feeders/Suspension Feeders	69
5.3.2.9.2	Mobile Macroinvertebrates	70
5.3.2.9.3	Phytoplankton	70
5.3.2.9.4	Water Column Summary	71
5.3.2.10	Indicators that Occur in More Than One Key Habitat Type	71
5.3.2.11	Contaminants	72
5.4	Effects from Interrelated and Interdependent Activities	75

5.4.1	Willamette River Navigation Channel Deepening	75
5.4.2	Deepening and Maintenance of Project Berths	76
5.4.3	Development of Port Activities and Deep Draft Vessels	76
5.4.4	Non-indigenous Species Introductions	77
5.4.5	Summary	77
5.5	Effects Resulting from Proposed Monitoring, Ecosystem Restoration, and Research Activities	78
5.5.1	Monitoring Program	78
5.5.2	Ecosystem Restoration Activities	80
5.5.2.1	Lois Island Embayment	81
5.5.2.2	Purple Loosestrife Control	82
5.5.2.3	Miller/Pillar Habitat Creation	82
5.5.2.4	Tenasillahe Island Tidegate and Inlet Modifications	83
5.5.2.5	Tenasillahe Island Historical Habitat Restoration	83
5.5.2.6	Bachelor Slough	84
5.5.2.7	Columbia River Tidegate Retrofits	84
5.5.2.8	Walker/Lord and Hump/Fisher Islands Channel Connectivity Enhancements ..	85
5.5.2.9	Martin Island Embayment Modification	85
5.5.3	Ecosystem Research Actions	86
5.6	Summary of Effects of the Proposed Action on the Biological Requirements of Coastal Cutthroat Trout and Bull Trout	86
5.7	Updated Analysis of Effects for Columbian White-tailed Deer and Bald Eagle	89
5.7.1	Columbian White-tailed Deer Effects	89
5.7.2	Bald Eagle Effects	90
6.0	Cumulative Effects	91
6.1	Introduction	91
6.2	State Actions	92
6.2.1	Oregon	93
6.2.2	Washington	95
6.3	Local Actions	96
6.4	Tribal Actions	97
6.5	Private Actions	98
6.6	Summary	98
7.0	Conclusion	100
7.1	Coastal Cutthroat Trout and Bull Trout	100
7.1.1	Effects Analysis	100
7.1.2	Monitoring Program and Adaptive Management Process	101

7.1.3	Ecosystem Research Actions	102
7.1.4	Ecosystem Restoration Features	103
7.1.5	Coastal Cutthroat Trout and Bull Trout Conclusion	103
7.2	Bald Eagle and Columbian White-tailed Deer Conclusion	103
8.0	Incidental Take Statement	105
8.1	Introduction	105
8.2	Amount or Extent of the Take	106
8.2.1	Coastal Cutthroat Trout and Bull Trout	106
8.2.2	Bald Eagle	108
8.2.2.1	Terrestrial species Opinion's Incidental Take Statement	108
8.2.2.2	Ecosystem Restoration Actions	108
8.2.2.3	Migratory Bird Treaty Act and Bald and Golden Eagle Protection Act	108
8.2.3	Columbian White-tailed Deer	109
8.2.3.1	Terrestrial species Opinion's Incidental Take Statement	109
8.2.3.2	Ecosystem Restoration Actions	109
8.3	Effect of the Take	109
8.4	Reasonable and Prudent Measures	109
8.4.1	Coastal Cutthroat Trout and Bull Trout Reasonable and Prudent Measures ..	109
8.4.2	Bald Eagle Reasonable and Prudent Measures	110
8.4.3	Columbian White-tailed Deer Reasonable and Prudent Measures	111
8.5	Terms and Conditions	111
8.5.1	Coastal Cutthroat Trout and Bull Trout Terms and Conditions	111
8.5.2	Bald Eagle Terms and Conditions	120
8.5.3	Columbian White-tailed Deer Terms and Conditions	121
8.5.4	Salvage Requirements	122
8.5.5	Conclusion	124
9.0	Conservation Recommendations	124
9.1	Introduction	124
9.2	Coastal Cutthroat Trout and Bull Trout Conservation Recommendations ..	124
9.2.1	Pile Dike Study	124
9.2.2	Ecosystem Conservation/Restoration	125
9.2.3	Sediment Budget for the Lower Columbia River and Estuary	125
9.2.4	Near-shore and Plume Study	125
9.2.5	Public Involvement in the Adaptive Management Process	126
9.2.6	Involvement of the Columbia River Tribes in Project Implementation	126
9.2.7	OHSU/OGI ELCIRC Modeling	126
9.2.8	Pipeline Dredge Disposal	127
9.3	Bald Eagle Conservation Recommendation	127

9.3.1	Provide Bald Eagle Perch Sites	127
9.4	Columbian White-tailed Deer Conservation Recommendations	127
9.4.1	Develop Columbian White-tailed Deer Habitat Management Plan for Cottonwood-Howard Islands	127
9.5	Conservation Recommendations Summary	129
10.0	Concluding Statement	129
11.0	Literature Cited	131

List of Tables

1	Species evaluated and the Corps' effects determinations in the 1999 and biological assessments	2002
2.1	Dredging methods, descriptions, and associated Best Management Practices ..	10
2.2	Disposal methods, descriptions, and associated Best Management Practices ..	13
2.3	Additional provisions for protection of water resources	14
2.4	Proposed dredging locations, disposal locations, and types of disposal	16
2.5	Key components of monitoring program	19
2.6	Sediment testing locations and frequency minimums	21
2.7	Proposed ecosystem restoration activities	24
2.8	Proposed ecosystem research actions	25
4.1	Conceptual model pathways and indicators for juvenile salmonid production in the lower Columbia River, estuary, and river mouth	39
4.2.	Estimated 2001 numbers and sex/age ratios of Columbian white-tailed deer, by geographic area/sub-population	48
5.1	Pathways and indicators to be addressed by the monitoring program	53
5.2	Proposed Project monitoring activities and effects of monitoring program implementation	80
