

February 1996 Flood - Foster Lake to the Willamette River, Sheet 1 of 4

NOTES:

1. The 1996 flood area was interpreted from aerial photography flown on 9-11 Feb. 1996. The flooded area shown on map may not represent the peak flood event (flood crest). The high water marks shown on some sheets indicate the flood exceeded the areas shown in some locations.
2. Aerial photo shown on map was taken during the summer of 2005.
3. These maps are available in pdf format from the following website as 11"x17" versions: https://www.nwp.usace.army.mil/op/v/foster_status.asp
Download Adobe Reader from <http://www.adobe.com/products/acrobat/readstep2.html>.
4. Coordinates are State Plane, Oregon South Zone, NAD83, Feet.
